OBJECTIVE

As a computer science student in a foreign country, I have acquired a diverse skill set through roles as a graphic designer, teacher, and director of social media in various organizations and private schools.
My academic and professional background has equipped me with strong communication skills, both academically and professionally.
I am now seeking an opportunity in an environment and organization that will not only enhance my knowledge and career but also allow me to contribute my skills effectively.
I am eager to engage in an environment that fosters continuous learning and growth, where I can leverage my strong academic foundation and professional experience. My goal is to enhance my social abilities, communication, and computer skills, aligning with my inherent caliber and efficiency.
I am excited about the prospect of contributing to and thriving within a dynamic and forward-thinking organization.
